CAHSI

COMPUTING ALLIANCE OF HISPANIC-SERVING INSTITUTIONS

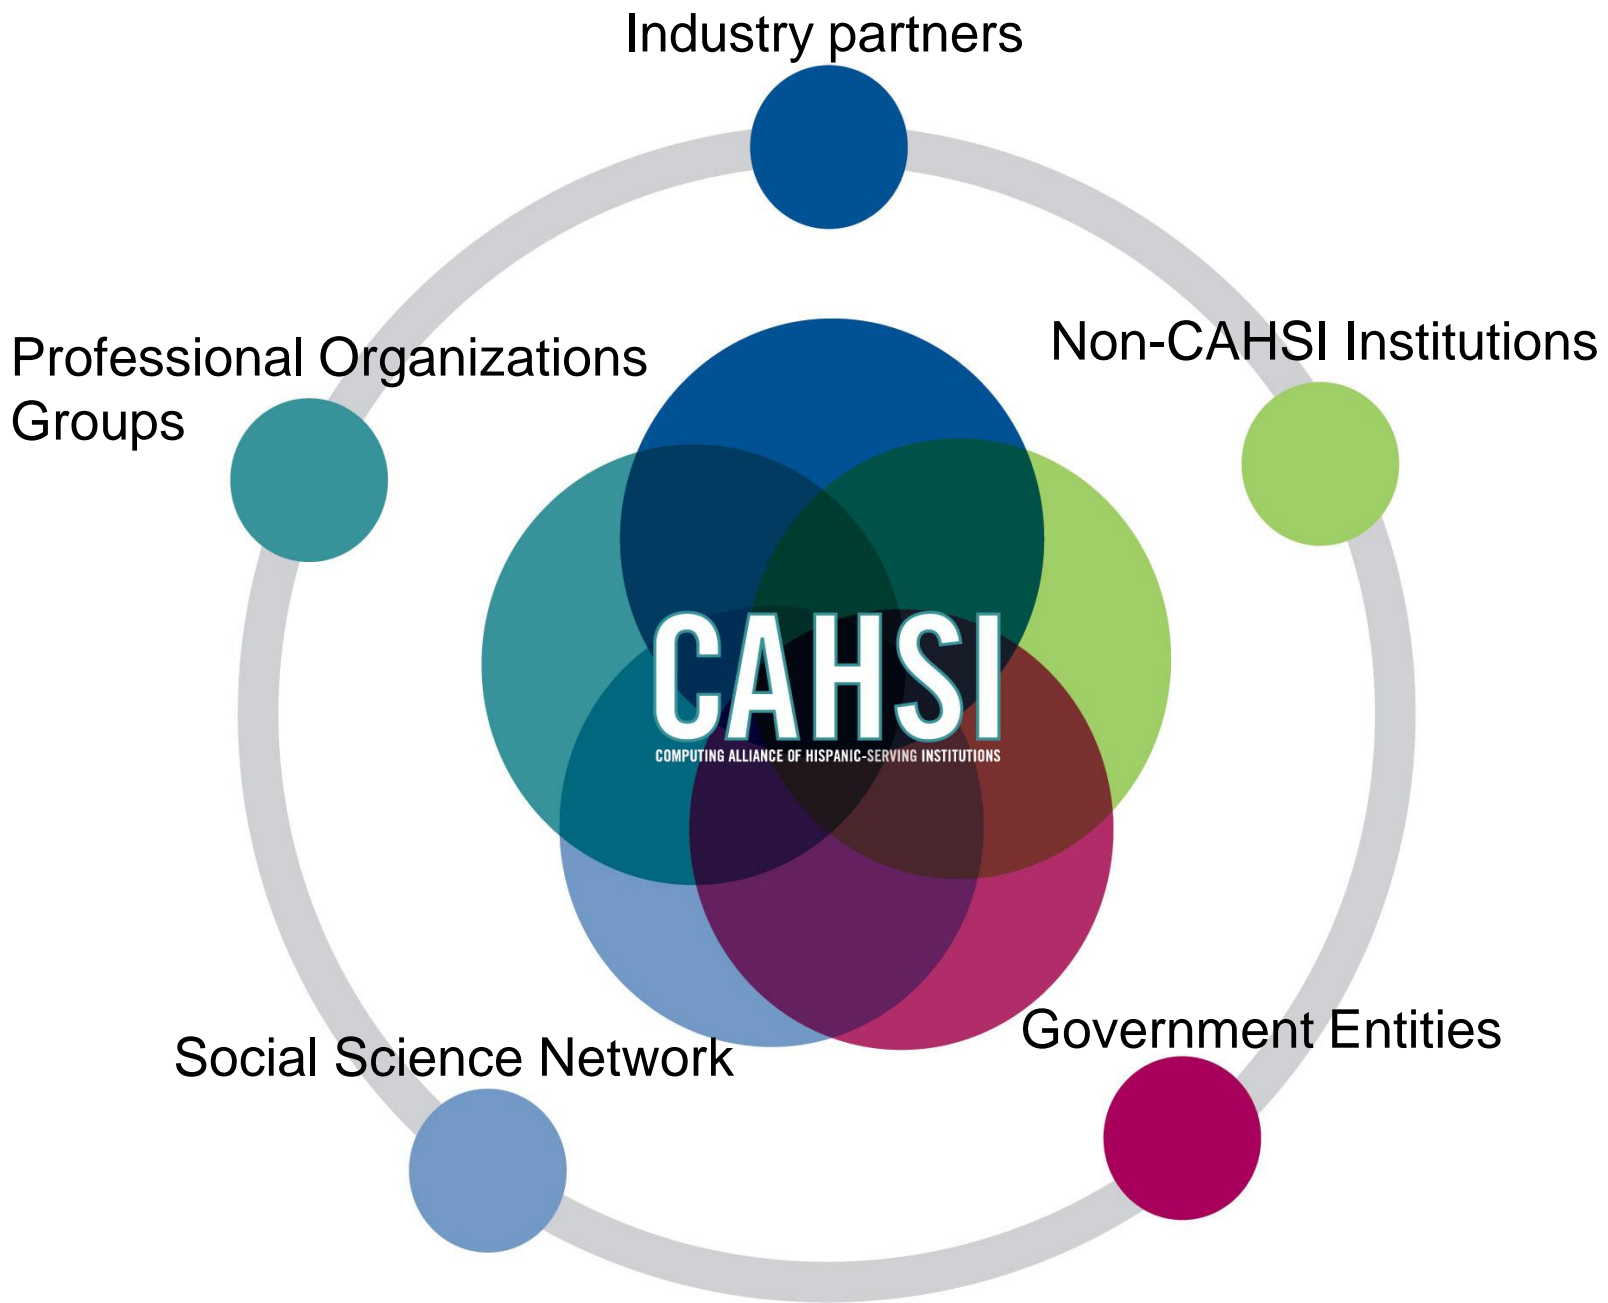

Ann Q. Gates
Associate VP Research
The University of Texas at El Paso

Create a **unified voice** to consolidate the strengths, resources, and concerns of HSIIs and other groups committed to increasing the number of Hispanics in all computing areas.

RECRUITING ■ **RETAINING** ■ **ADVANCING**

HISPANICS IN COMPUTING

ORGANIZATION

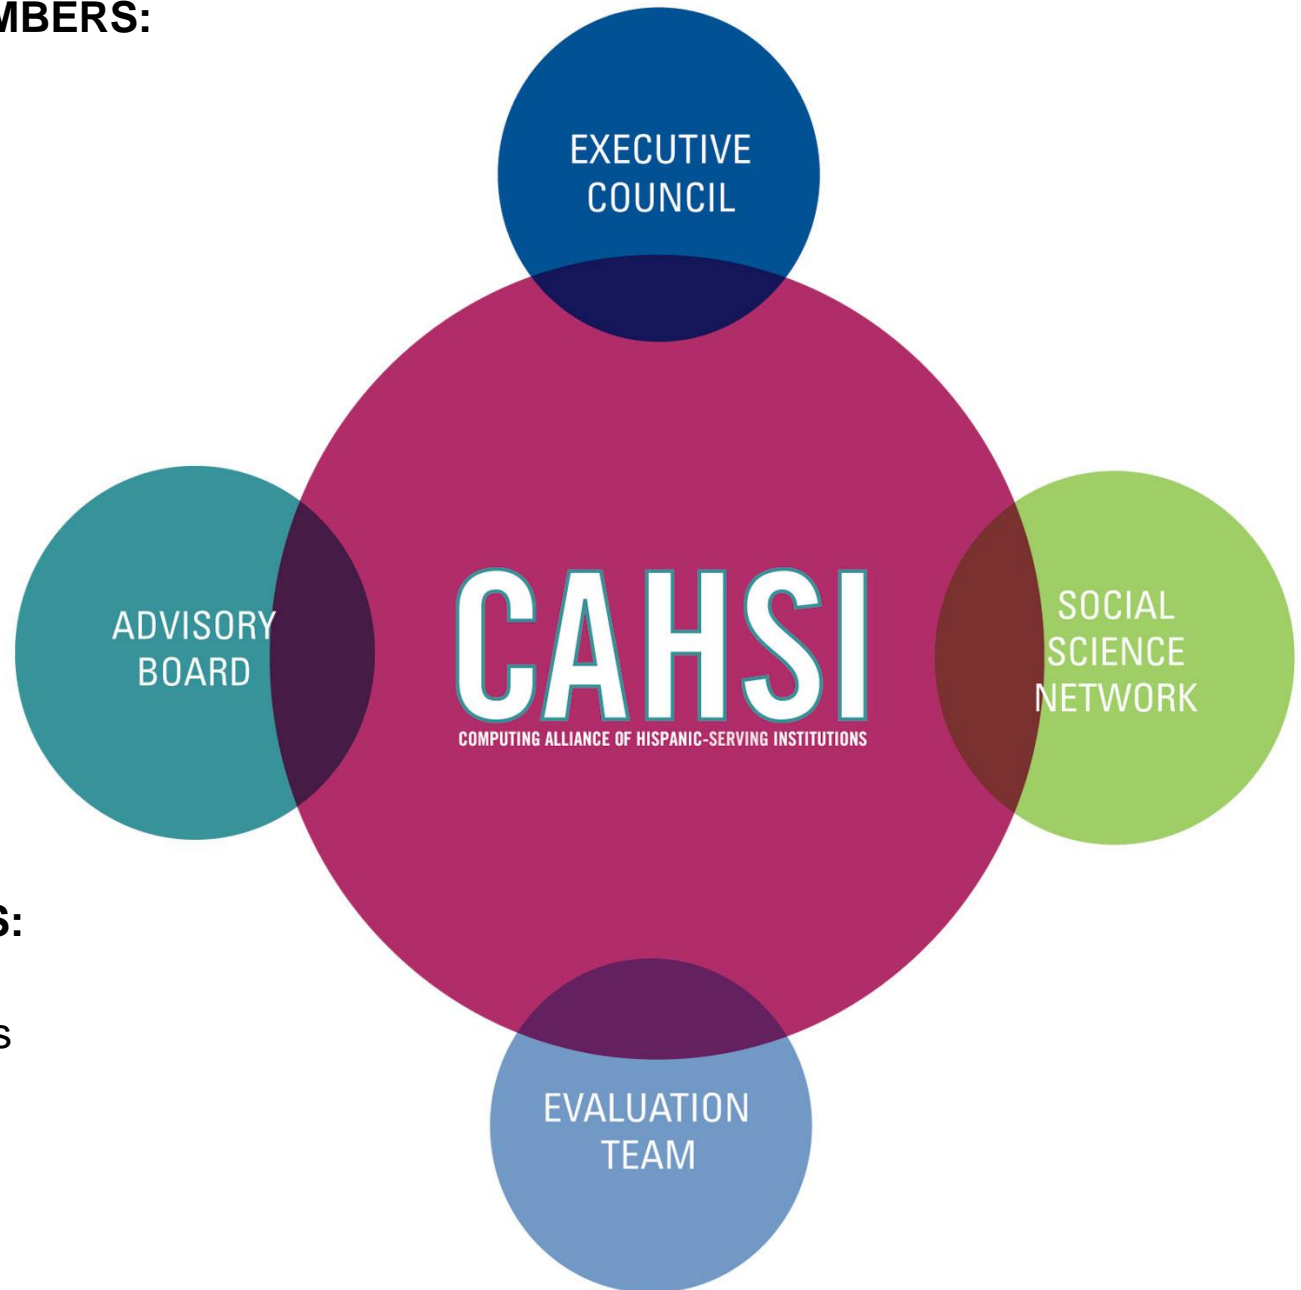

Structure

FOUNDING MEMBERS:

CSU
FIU
NMSU
TAMU-CC
UHD
UPRM
UTEP

NEW MEMBERS:

Dade College
CSU-San Marcus
UTPA
UPR-Aracibo
Polytechnic UPR
U El Turabo

GOALS

1. Increase number of students who enter computing workforce with advanced degrees.
2. Support retention and advancement of Hispanic faculty in computing.
3. Develop and sustain competitive education and research programs at HSIs.

CAHSI *mainstreams mentoring*, building structured, academic networks through intensive, systemic academic initiatives

- CAHSI was named in the 2010 Examples of Excelencia as an effective national initiative that accelerates Hispanic student success at the baccalaureate level.

- Served **2,634 students with semester long, academic initiatives**
- Graduated 157 more baccalaureate graduates than expected, given national trends, and graduate Hispanics at three times more Hispanics than regional average
- PLTL has provided 17,580 contact hours of student-centered, collaborative instruction
 - All students passing gatekeeper computing courses at greater rates since CAHSI's PLTL initiative began
 - Course completion rates of Hispanic students have increased by 13% since PLTL was implemented.
